

JALITE Aluminum ULC LISTED SORTIE Signs Reduce the Cost of Maintenance, and Energy.

“The savings in inspection time alone make these worth it.”
 - Craig Wagner, Staff Electrician, Middletown School System

• Reduce Required Maintenance

The most overlooked costs to exit signs are the monthly and annual inspections required by code, and the replacement of bulbs and batteries. Once Jalite signs are installed, there are **NO tests to perform and NO batteries or bulbs to change.**

• Lower Life Cycle Cost

JALITE Aluminum SORTIE signs use proprietary pigments that last twice as long as the typical lifespan of a LED alternative. Why buy two electrical signs when you can purchase just one JALITE Sign?

• Use Less Energy

Charged by the ambient light of your facility, Jalite Exit Signs require no additional energy.

“When the lights go out, ours go on.”™

• Emergency Preparedness

JALITE ULC Listed SORTIE signs do more than meet the code; they ensure your facility is prepared for the worst case scenario. If the lights are on, prior to a power outage, JALITE SORTIE signs will illuminate the location of the exit without fail. We mean it when we say “When the lights go out, ours go on”™

• Code Compliant

Listed to the ULC standard, and provided their installation meets the stated requirements*, JALITE SORTIE signs can be used in lieu of an electrical alternative and still meet the NBC and provincial code requirements for identifying the means of egress.

*A minimal amount of light (5 foot candles of fluorescent light) is required on the face of the sign. If you're still unsure, give us a call.

Jalite Red Aluminum ULC Listed SORTIE Sign (UL631AS) shown with Black Wall Mounted Frame (F029B)

Item No. **UL433AS**
580x230mm
